

Get more from your NetSuite investment

Book in a NetSuite System Review with a 5 star NetSuite partner

See the full benefits of your software

Our customers often tap into additional NetSuite features, new sales avenues such as partner and channel networks or simply change the way their business operates.

Booking a NetSuite System Review empowers you to get the most from your investment and provides a plan to leverage even more.

As a 5 Star Partner selling both NetSuite and JCurve ERP editions, our team is experienced with small businesses, right up to enterprise. They'll give you the best recommendations and insights to keep your business growing.

Our experts will spend the day on-site with you, to gain a thorough understanding of your business and deliver:

Detailed analysis on how you currently use the system, pointing out any quick wins for immediate improvements.

Expert advice on the gap between your current and optimum processes, guidance on which priorities to focus your investment.

A detailed plan to bridge that gap, expand your functionality, your understanding of the system and how to leverage efficiencies to further maximise your investment.

“ We needed a solution that would integrate and optimise our operations, allow our workforce to be more flexible, scale as the company grew and offer cloud based benefits by eliminating the need for servers and updates. ”

- Emma Welsh, Co-Founder of Emma & Tom's

Empower. Simplify. Grow.

Our team of experts will empower your business even further through automation, help simplify your business processes and set you up for faster business growth.

Key areas addressed will include:

Account setup and configuration

Reviewing enabled features in your account and identifying new and beneficial features.

Classification structures

Assessing and improving your use of departments, classes and locations.

Improving stock management

Identifying better efficiencies through preferred stock levels, reorder points, demand planning, bins, multiple locations and more.

Analysing your sales process

Improving lead management, opportunities, quotes, sales orders and invoicing.

Marketing

Leveraging the benefits of having sales, CRM and marketing data working together.

Purchasing processes

Streamlining and automating your procurement operations.

Accounting processes

Time savings using bulk processing queues for invoicing and other back end processes.

Further extending the value:

Project management

We'll work with you to project manage and deliver any system review recommendations uncovered.

End user training

We'll identify training requirements and deliver bespoke training courses to empower your staff.

JCurve Solutions is one of the largest NetSuite solution providers in Australia and New Zealand and have been awarded NetSuite's 5 star status.

With an Australian based team and over 550 successful implementations of NetSuite's cloud ERP software, you can have confidence that you're receiving the highest level of expertise and support to get your business growing faster.

The result? Streamlined and simplified processes designed for growth

- ✓ more efficient operations
- ✓ streamlined and automated processes
- ✓ maximising your ROI
- ✓ improved profitability
- ✓ improved inventory management
- ✓ faster business growth
