
JCurve Solutions is looking for a Professional Services Technical Consultant in Thailand

Who is JCurve Solutions

JCurve Solutions brings the right cloud technology and talented people together. Then we help companies achieve greater business success. You know, because together, we're all more successful. Want to know more? Check us out [\[here\]](#)

What is the role?

Our Professional Services Technical Consultants are responsible for the high-quality service delivery of JCurve Solutions (JCS) products and solutions. This typically involves designing, developing and deploying custom functionality, automations, integration and workflow solutions.

Who is the ideal person for this role?

Somebody who is passionate about Cloud Business solutions, and helping businesses improve and grow. Somebody who is passionate about culture. Somebody who can live our values [\[here\]](#). And of course, passionate about Service Delivery. Because the role involves all the stuff you would expect:

- Responsible for developing customizations, automation and integrations for JCurve products and solutions (Experience developing on the NetSuite's SuiteCloud Platform is desirable).
- Technical Knowledge of Enterprise Resource Planning Software (preferably NetSuite).
- Collaborate with Professional Services Consultants in gathering business/technical requirements.
- Experience in developing technical design for solutions and provide work breakdown and estimates of work.
- Ability to focus on complex problems and communicate solutions effectively.

How to apply

Send your resume, a short introduction and the details of the position or area for which you're applying to hr@jcurvesolutions.com. We can't wait to hear from you!
