ASX: JCS

Disclaimer

The information contained in this Presentation ("Presentation") has been prepared by JCurve Solutions Limited ("the Company") and is being delivered for informational purposes only.

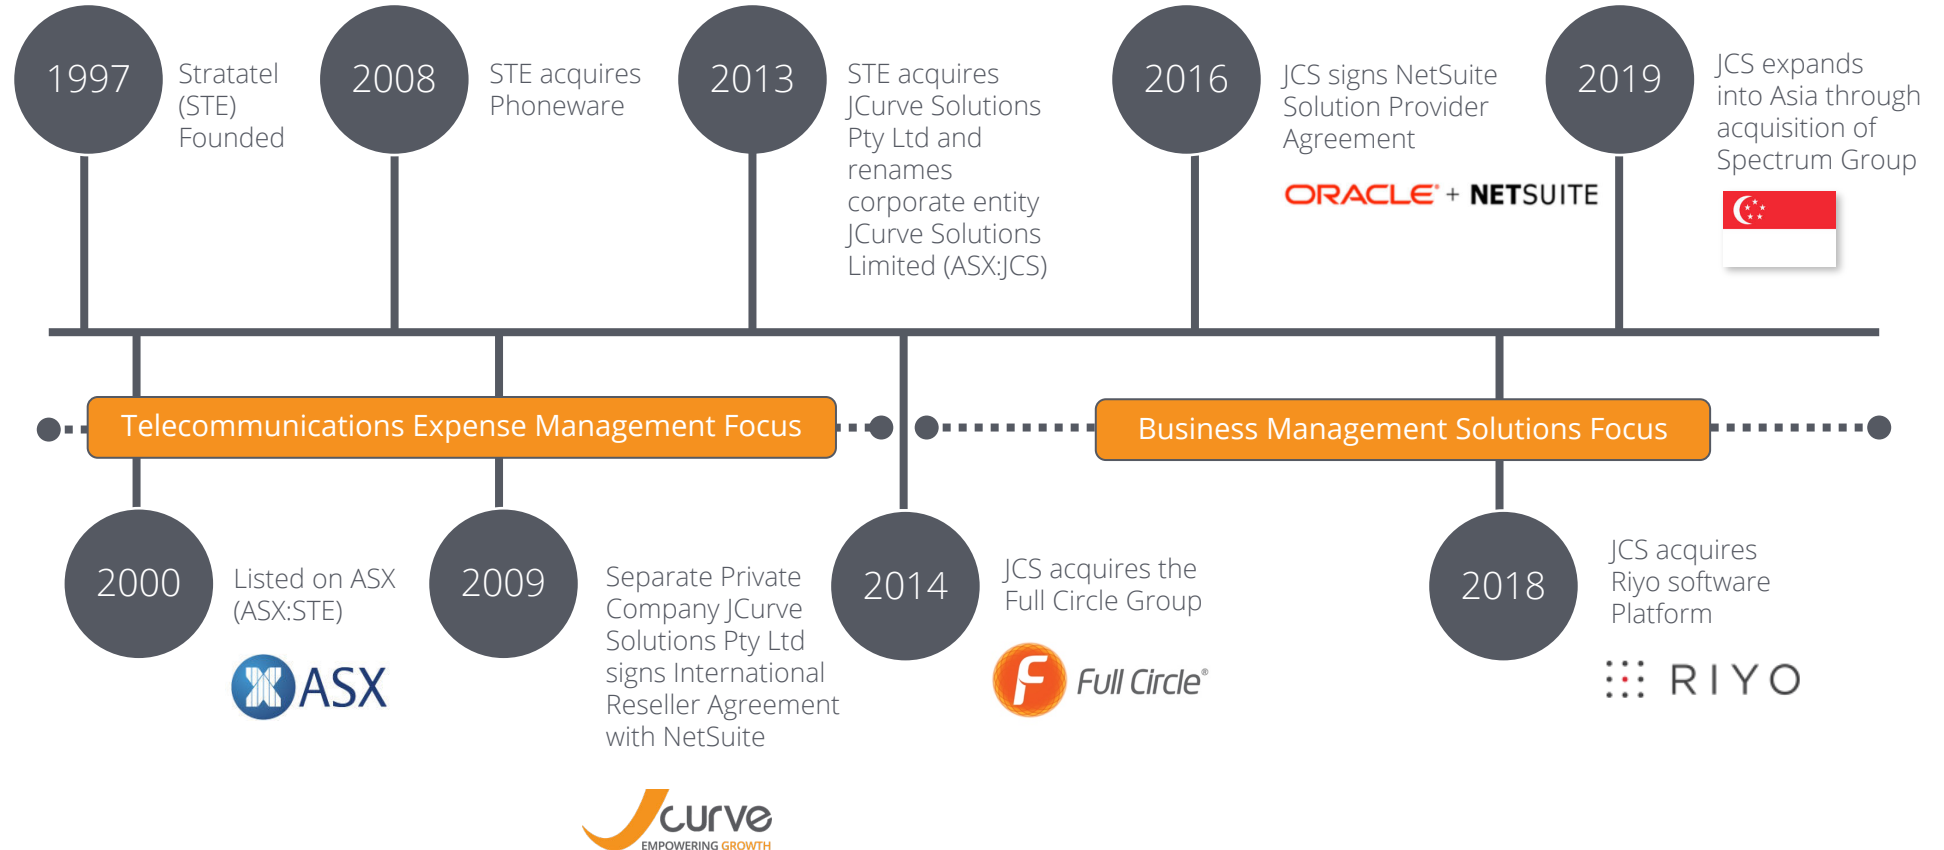

The Company has prepared the Presentation Materials based on information available to it at the time of preparation. No attempt has been made to independently verify the information contained in this Presentation. The Presentation does not purport to contain all information that a prospective investor may require. While the information contained herein has been prepared in good faith, neither the Company nor its shareholders, directors, officers, agents, employees, or advisors give, has given or has the authority to give, any representations or warranties (express or implied) as to, or in relation to, the accuracy, reliability or completeness of the information in this Presentation, or any revision thereof, or of any other written or oral information made or to be made available to any interested party or its advisors (all such information being referred to as "information") and liability therefore is expressly disclaimed. Accordingly, neither the Company nor any of its shareholders, directors, officers, agents, employees or advisors take any responsibility for, or will accept any liability whether direct or indirect, express or implied, contractual, tortuous, statutory or otherwise, in respect of the accuracy or completeness of the information or for any of the opinions contained herein or for any errors, omissions or misstatements or for any loss howsoever arising from the use of this Presentation. In furnishing this Presentation, the Company does not undertake or agree to any obligation to provide the recipient with access to any additional information or to update this Presentation or to correct any inaccuracies in, or omissions from, this Presentation which may become apparent.

This Presentation should not be considered as the giving of investment advice or recommendations by the Company or any of its shareholders, directors, officers, agents, employees or advisors. Each party to whom this Presentation is made available must make its own independent assessment of the Company after making such investigations and taking such advice as may be deemed necessary. In particular, any estimates or projections or opinions contained herein necessarily involve significant elements of subjective judgement, analysis and assumption and each recipient should satisfy itself in relation to such matters.

This Presentation may contain "forward looking statements". Where the Company expresses or implies an extension or belief as to future events or results such expectation or belief is expressed in good faith and believed to have reasonable basis. However, "forward looking statements" are subject to risks, uncertainties and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by such "forward looking statements". The Company does not undertake any obligation to release publicly any revisions to any "forward looking statement" to reflect events or circumstances after the date of this Presentation or to reflect the occurrence of unanticipated events, except as may be required under applicable laws.

All forward looking statements, forecasts and projections contained in this Presentation are qualified by the foregoing cautionary statements. Recipients are cautioned that forward looking statements are not guarantees of future performance and accordingly recipients are cautioned not to put undue reliance on forward looking statements due to the inherent uncertainty therein.

JCurve

The “Why”

JCS is a **specialist solution provider**. Our whole business is based around providing an **exceptional customer experience** by delivering the best possible solution to our clients through **market leading software applications** and **excellence in service delivery**.

Mission

We deliver world-class business management solutions that enable our customers to make lasting, substantial improvements to their business performance.

Vision

To become the most trusted cloud solutions partner for growing businesses throughout the Asia Pacific region.

The “What”

We deliver cloud solutions and services that drive **improvement in business performance.**

ERP

ORACLE® + NETSUITE

Service

RIYO

TEMS

 Jtel
SIMPLIFYING
TELECOM MANAGEMENT

 Full Circle®

The "How"

Across all our solutions and services, we stick to 5 principles that determine **HOW** we do anything.

01

Simplify complexity to reduce effort, bring operational efficiency and drive growth.

02

Deliver exceptional customer experience solving pain-points that others can't solve.

03

Grow the value of customers seamlessly giving us higher profit per customer.

04

Leverage scale and a lower cost base to ensure we are competitive and growing our profitability.

05

Live our corporate values and maintain our cultural vitality.

Enterprise Resource Planning (ERP)

What is ERP?

ERP stands for **Enterprise Resource Planning**. It is integrated software to manage all aspects of a business.

Every business size solutions for large, mid-sized and small, fast-growing businesses.

Industry-specific functionality spanning a broad range of businesses.

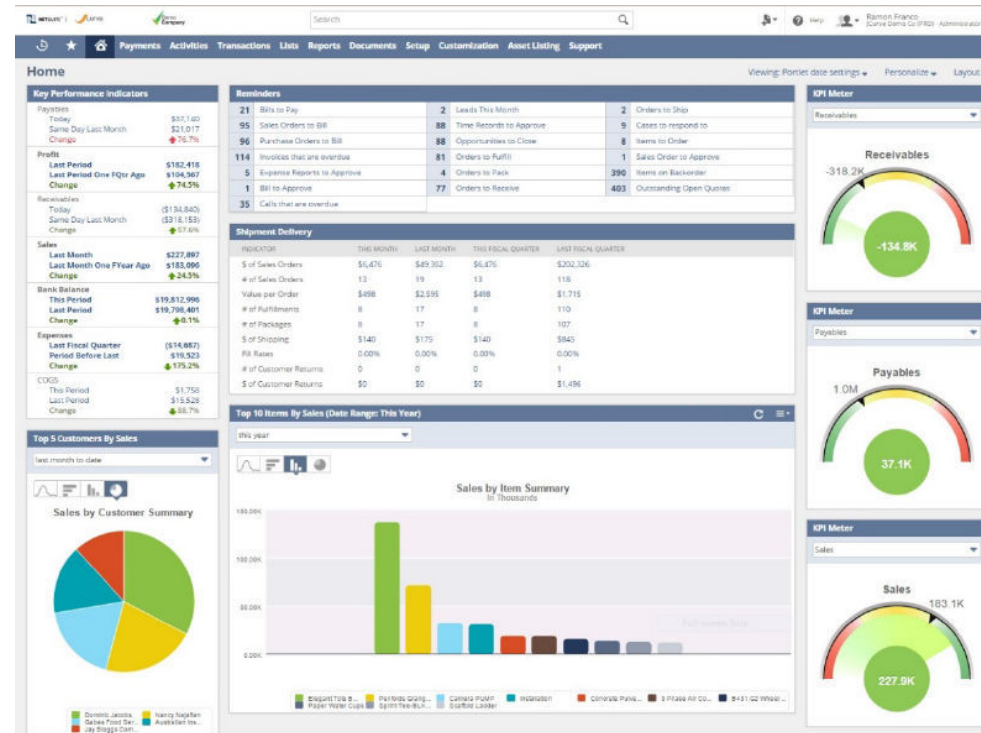

Our ERP Story

In 2009, our ERP practice was born, selling a small business edition of NetSuite (JCurve ERP).

In 2016, on becoming a full NetSuite Solution Partner we significantly increased the size of the addressable target market. JCS now sells all editions of NetSuite into a wide range of industries.

In 2018 we entered the Asian market, opening an office in Singapore following the acquisition of a local Solution Partner.

About Oracle NetSuite

- NetSuite is the #1 Cloud Business Software Suite Globally
- >16,000 customers
- NetSuite acquired by Oracle (NYSE: ORCL) for \$9.6bn in 2016
- NetSuite transforms how businesses operate so they can achieve their business vision

ORACLE® + NETSUITE
SOLUTION PROVIDER

Our ERP Success

- #1 Oracle NetSuite Solution Partner globally by customer count
- 5-star Solution Partner which guarantees JCS receives the highest level of commissions on NetSuite edition licence sales
- 10-year track record of successful ERP delivery
- Rapid implementation methodology
- First adopters in the region of SuiteSuccess – NetSuite's strategic product and implementation methodology
- Unrivalled implementation experience
- 600+ ERP customers
- Successfully expanded from SME to also service larger global organisations

JCS awarded Oracle NetSuite New Business Partner of the Year 2018, delivering more new business to Oracle NetSuite than any other partner in ANZ

ORACLE® + NETSUITE

5 STAR AWARD
2017 ★★★★★

ORACLE® + NETSUITE

Our Model

We acquire new customers, delight them with exceptional customer experience and a world class product so that they stay with us, grow with us and buy more services and solutions from us, and refer more customers to us.

www.jcurvesolutions.com/customers

We use the following four key metrics to measure the success of our ERP practice:

ARR

Annual
Recurring
Revenue
(annualised
licence and
support
income)

Deal Size

Average Net
Income per New
Business Sale

Acquisition

The number of
customers and
licensed users

Churn

The percentage
of Annual
Recurring
Revenue lost
each year from
the customer
renewal base

ARR

The annualised contracted recurring revenue across the ERP contract base. This represents the net licence fees, plus support.

What is driving ARR growth?

- Each year we acquire more new customers
- We sell more to existing customers
- We retain our customers better

Average Net Income Per New Business Sale

This is the licence commission received on NetSuite edition customers or licence fee charged for JCurve ERP customers, plus implementation fees, plus support plus any third-party products.

What is driving AIPS growth?

- Increase in customer size with the sales of NetSuite editions
- Increased additional modules and professional services sold

(*) Average unaudited result for the 11 months ending 31 May 2019

Customer Acquisition

Since becoming a NetSuite Solution Provider in 2016, our focus has broadened to include not only small business customers but also the larger mid-market and enterprise customers. Larger customers deliver increased ongoing revenue and are more profitable.

The majority of our NetSuite edition clients have been acquired in the last 2 years.

Churn

What has been driving the reduction in long term churn?

- Our dedicated support team
- Our local account management team who are committed to ensuring customers get ongoing value from their ERP solution
- The move to larger, more stable customers

ERP Churn by Contract Value

7.9%

Current ERP
Churn (**)

(**) FY2019 ERP churn
for the 11 months
ending 31 May 2019

(*) Average unaudited result for the 11 months ending 31 May 2019.

“Our ability to scale provides the opportunity to continually grow our customer base and our share of our customers’ spend. We now have the people, processes and systems in place to prove that scalability whilst maintaining a strong focus on delivering an exceptional customer experience.

By leveraging the world’s #1 cloud ERP platform, we provide a cloud business management solution for businesses of all sizes that will scale seamlessly as a business grows”.

Kate Massey,
Chief Marketing Officer

ERP sales continue to grow while costs are flattening

- Our Australian based team is at peak planned capacity
- Increased use of lower cost-base highly-skilled certified resources
- Increased operational efficiencies
- Scalable support through use of AI based support bots

(*) Forecast for FY2019 as at 31 May 2019 – unaudited results.

(**) Not a forecast. Reflects a future projection based on the execution of strategies outlined on this page. JCS expects that its costs will only marginally increase as future revenue increases. The numbers in the graph are not representative of the company portraying a forecast or estimate.

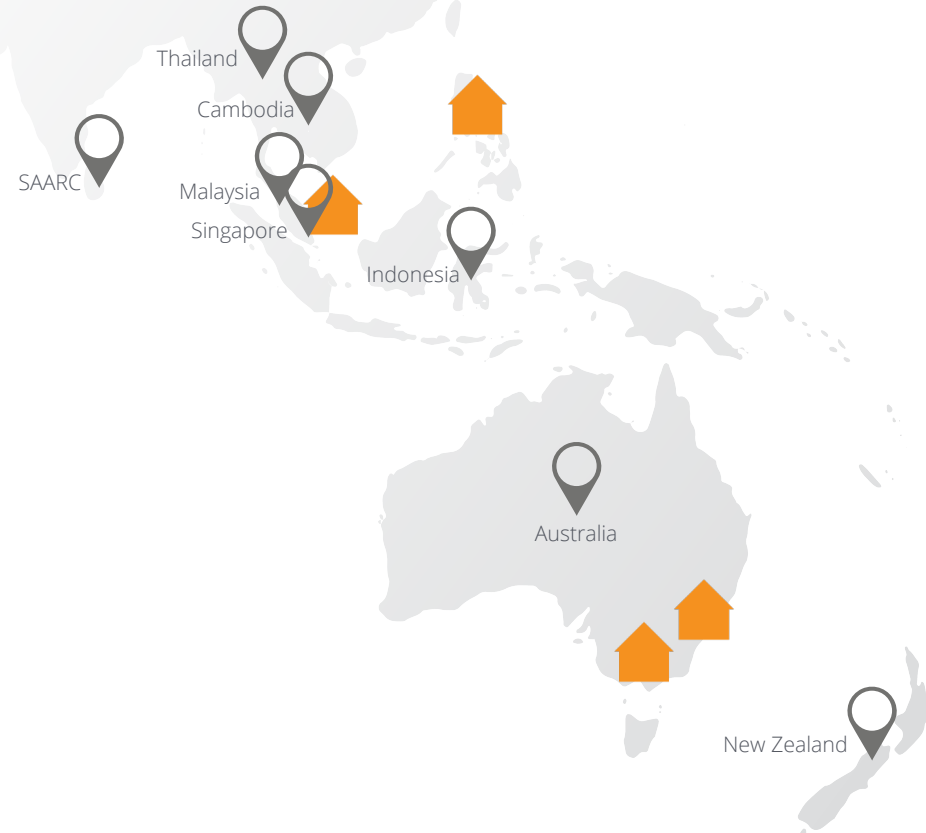

We are focused on opportunities that will **accelerate growth and our profitability**

JCS Asia

We have established our Asian HQ in Singapore through acquisition.

JCS Philippines

We have created a delivery centre of excellence in Manila that will support our growth in Australia and across Asia.

Our Offices

- Sydney
- Melbourne
- Singapore
- Manila

Our Territories

- Australia
- New Zealand
- Singapore
- Malaysia
- Thailand
- Indonesia
- Cambodia
- SAARC

Why expand into Asia?

- We have over 10 years experience implementing NetSuite, we see an opportunity to bring our expertise to a rapidly growing and currently immature ERP market
- Diversify economic dependency
- Counter the seasonality of our Australian business
- Reduce our cost base
- Accelerate our ERP growth. We believe JCS can do exceptionally well in Asia based on:
 - Our credibility as NetSuite's #1 partner globally
 - The size of our team and our number of certified consultants
 - The credibility and reassurance that an ASX listed company brings to the Asia marketplace
 - Our Sales and Marketing expertise
 - The support of our strategic partner Oracle NetSuite

Partner Rollup Acquisition Strategy

We are seeking to actively rollup some of the smaller NetSuite Solution Partners in Asia when there is a compelling investment and business opportunity.

- NetSuite Solution partners in Asia tend to be less mature and available to acquire at realistic valuations
- An existing partner gives JCS the local presence and knowledge of the local business and cultural landscape so we can “hit the ground running”
- JCS’ people, processes, systems and our credibility assists the local Solution Partner to rapidly grow through increased sales and faster delivery
- When JCS acquires another solution partner, that partner immediately becomes part of JCS 5-star NetSuite partner with corresponding higher commission level for both new business and existing business. Therefore, the existing partner’s contracted recurring revenue is immediately uplifted, underwriting part of the cost of acquisition for JCS

JCS Philippines

We have established a presence in Manila

- A talented skills base is available
- We have established a delivery centre of excellence in Manila to:
 - Support our growth in Australia
 - Support our expansion into Asia
 - Deliver unrivalled customer experience
 - Deliver more services work into our existing customer base
 - Reduce our existing cost base

The Opportunity

With the people, product and resources in place in the geographic locations entered, JCS is well positioned to leverage the Asian growth opportunity

- Increase our customer acquisition count
- Increase the ARR of the ERP practice
- Increase the overall services revenue of the practice
- Reduce our overall cost base

ERP Revenue by Geographic region

(*) Forecast for FY2019 as at 31 May 2019 – unaudited results.

(**) Not a forecast. Reflects a future projection based on the execution of strategies outlined on this slide. The numbers in the graph are not representative of the company portraying a forecast or estimate.

What to expect

- Continued growth in licenced users as our average customer size increases
- Continued growth in Deal Sizes
- Continued growth in ARR
- Relatively static customer numbers in Australia as we focus on larger customer wins and the customer mix shifts away from Small Business
- More customers in new verticals for JCS (e.g. Service and Software businesses)
- Strong contribution from JCS Asia to our H2 result
- Increasing levels of unearned income as we sell to larger customers whose implementation takes longer to complete
- Further M&A activity in Asia
- Strengthen our position as NS #1 ERP partner
- Growth in Asia
- Maintain 5-star status
- Lower cost base with expansion of JCS Philippines
- Gross margin growth
- Re-investment of profit and cashflow into opportunities
- Expansion of territory

"In line with JCS' stated intent to be a diversified technology solutions company we will seek to both acquire technology intellectual property and also to deliver value to our shareholders by realising the inherent value of the businesses that we grow".

Stephen Canning
CEO
JCurve Solutions

RIYO Service Management Software

What is Riyo?

- Whatever the size of a business, if you need to take a booking, deliver a service at a certain place and time, take payment, then we've got it covered
- Retailers and service businesses often lose control of the customer experience in "the last mile" – we've fixed that
- Riyo improves visibility and collaboration for all parties involved in delivering and consuming a service
- Riyo delivers the mobile experience demanded by today's consumers
- Powered by AI, the whole customer interaction is monitored to ensure an outstanding customer experience

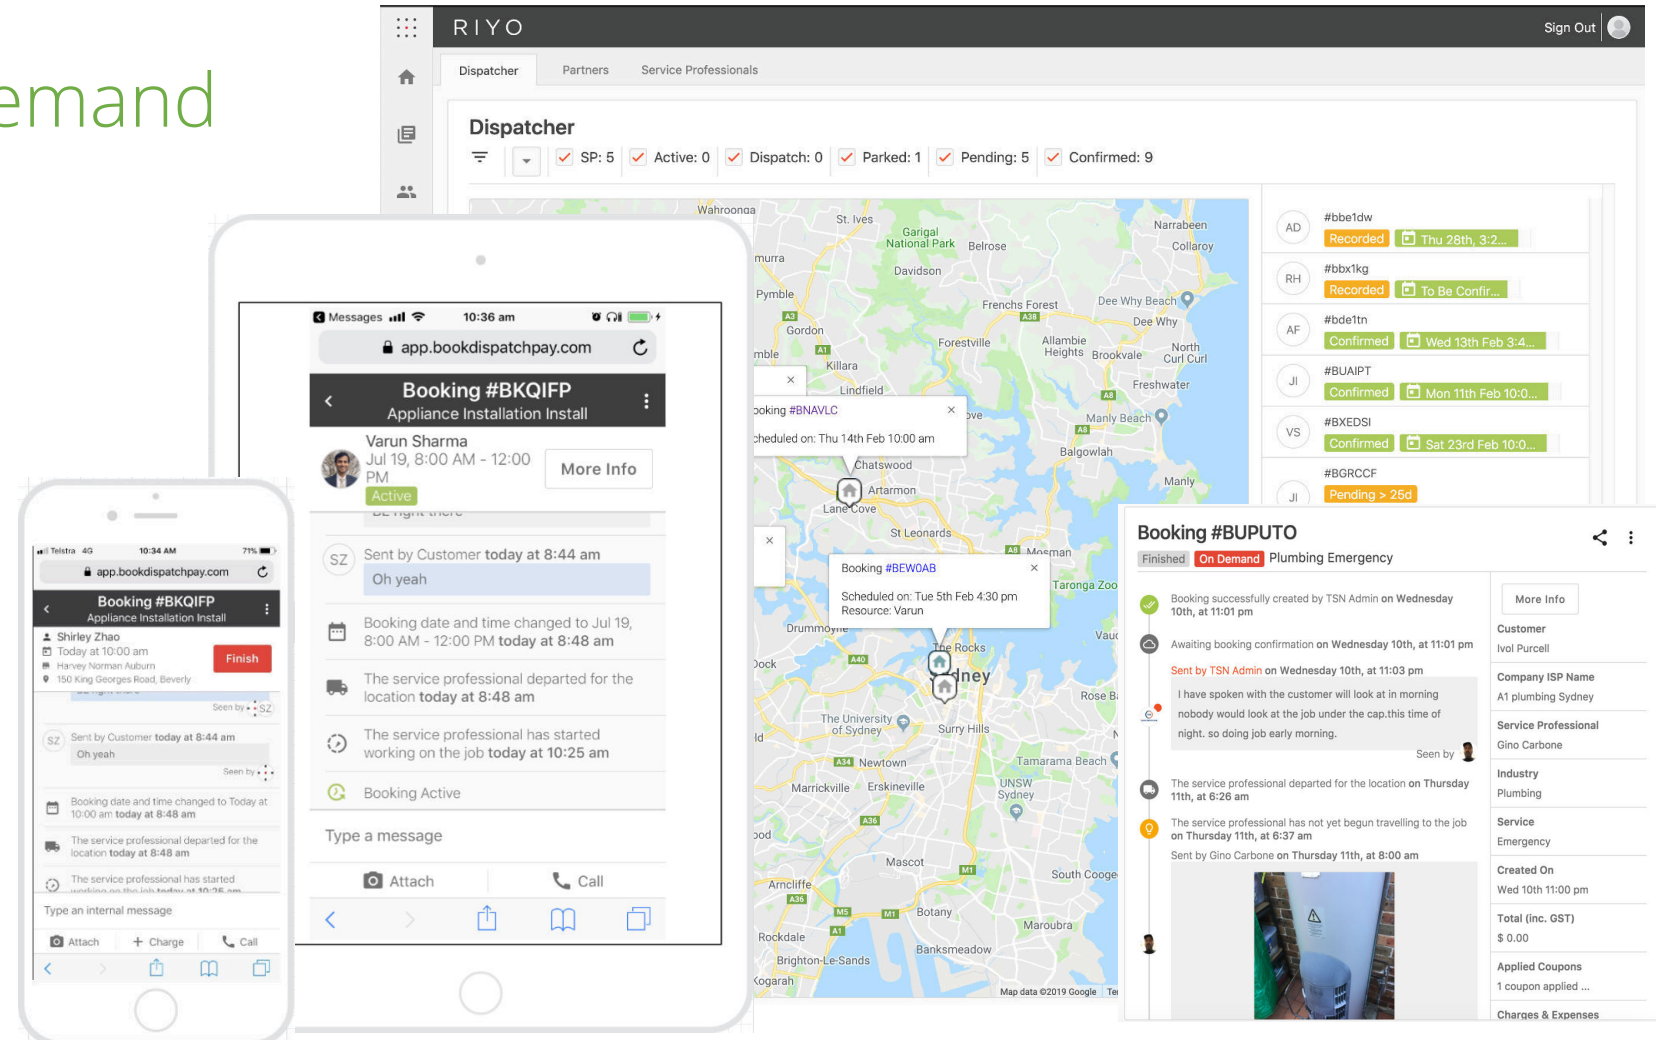

Explainer video: https://youtu.be/sZZT_jOXTiw

Your Business On Demand

The Riyo Story

- A start up acquired by JCS in June 2018
- JCS completed development of platform
- Integration to NetSuite built
- Established Riyo team to support our go-to-market
- Launched to existing JCS customers March 2019
- First customers on platform May 2019

Who is Riyo for?

Service businesses that want to:

- Modernise the delivery experience for customers
- Scale their operations

Product businesses with:

- Installation Services
- Warranty and maintenance needs

Any business that wants to:

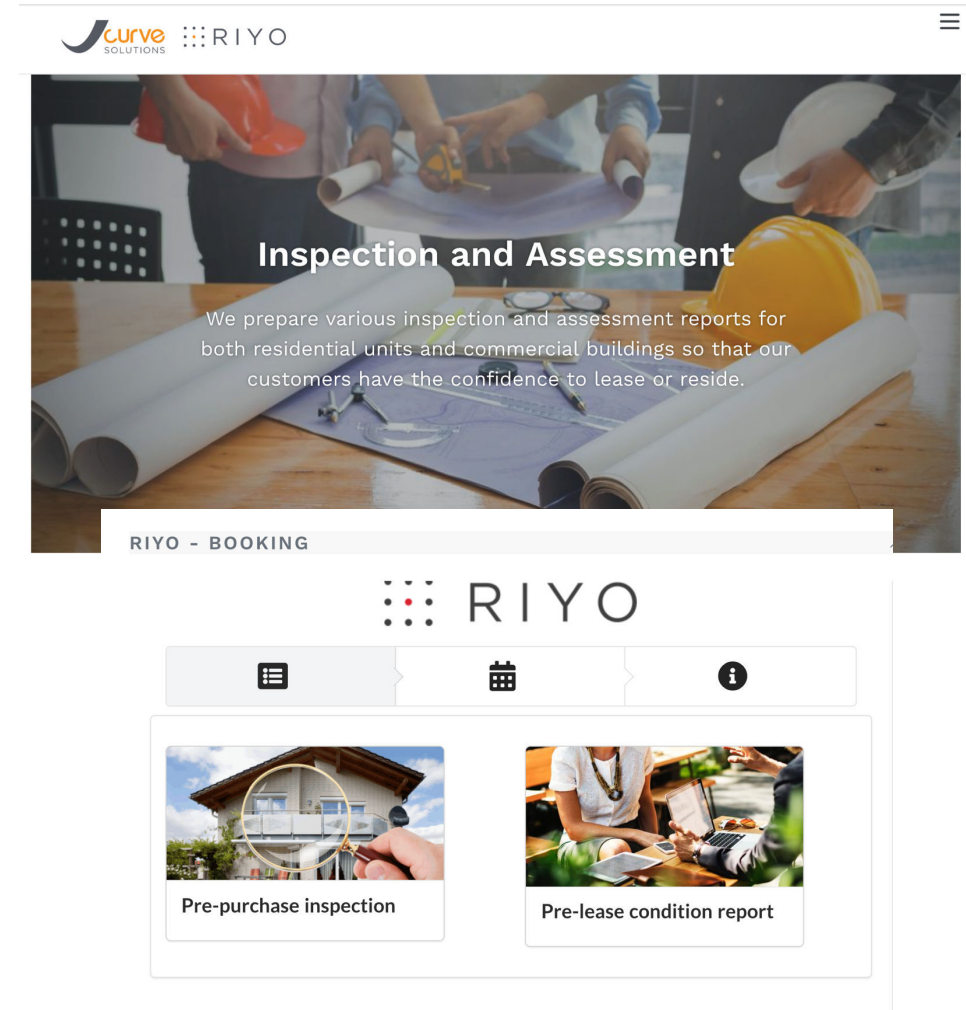

- Take a booking to deliver a service at a specified location, at a specified time
- Take a booking from their website or social media pages
- Deliver real-time progress updates on service bookings to customers
- Maintain quality control with access to rating and reviews of service providers
- Deliver an outstanding mobile-first experience to support brand loyalty and repeat sales

Businesses that could benefit from Riyo

- Specialised Transportation
- Real Estate Management
- Home Medical Services
- Post-purchase assembly and Installation
- Maintenance
- Cleaning Services
- Facilities Management
- Inspection and Assessment
- Insurance
- Storage Services
- Pest Control

Key Features of Riyo

- Scalable, enterprise grade solution for both B2B and B2C businesses
- Easy integration into existing systems such as accounting and ERP packages including NetSuite
- Customer-centric, complete visibility of service transaction for customer
- Location-enabled real-time tracking
- Automated digital end-to-end experience
- Production tested with enterprise customers
- Disruptive technology that is changing the way organisations service their customers and how consumers procure and engage services
- A differentiator for the “last-mile” of service delivery
- Customisable experience with development layer to make Riyo unique for each business

What to expect

- Small revenue contribution FY19
- Growing customer numbers Q1 FY20
- Full marketing launch in Australia Q1 FY20
- Establishment of channel sales FY20
- Launch in to Asia FY20
- Global opportunity

Customer Acquisition Strategy

- Self Service online sign-up for small businesses
- Channel partnerships
- Leverage existing 600+ ERP customer base
- Targeting larger, high-volume service-based organisations

Telecommunication Expense Management Solutions (TEM Solutions)

Our TEM Solutions **simplify** **telecom expense management**

Our TEM Solutions Story

- Proprietary owned portfolio of solutions
- Original product proposition was to prevent “bill shock”
- TEM Solutions Market has declined for a number of years due to telco commoditisation
- Our solutions are still of benefit to larger organisations looking for admin efficiency and cost control
- Our solutions are mature. We are committed to continuing support for our TEM solutions

What to expect

- Ongoing profitable contribution to JCS
- Continued support for TEM solutions
- Reducing churn as larger more stable customers make up the majority of the remaining customer mix
- More lumpy churn if our larger customers decide to cancel their TEM services
- We will seek opportunities in less mature telco markets in Asia

TEMS Statutory Profit (ex impairment)

\$1.1M

Current Annualised Statutory Profit

TEMS Revenue

Customers

(*) Forecast for FY2019 as at 31 May 2019 – unaudited results.

“JCurve Solutions has been on a transformational journey to build the foundations for delivering improved and sustainable shareholder value. By delivering world-class technology solutions to drive business efficiency and performance to an expanded customer base, that are implemented and supported by a team of passionate and skilled experts we are perfectly placed to capitalise on continued expansion across Asia-Pacific. We’ve built an unrivalled company culture that ensures our team have a customer-first approach and deliver a great chance of success for businesses. We believe that together we are all more successful”.

Stephen Canning,
Chief Executive Officer

Grow ERP in Australia

- Win new business in mid-market
- Increase upsell to existing customers
- Reduce churn

Grow JCS in Asia

- Grow ERP Sales from Singapore office
- Grow JCS Philippines team
- Establish JCS brand in Asia
- Further M&A

Launch RIYO

- Product enhancements from existing customer feedback
- Expand into existing customer base
- Focus on larger opportunities
- Look beyond Australia

To be a
diversified
technology
solutions
company

(*) Forecast for FY2019 as at 31 May 2019 – unaudited results.

What to expect

- Sustained revenue growth in ERP in Australia based around mid-market
- Further expansion in ERP in Asia both organic and through acquisition
- Flattening of cost base growth
- Small revenue contribution from Riyo in FY19
- Ongoing, profitable contribution from TEM Solutions albeit declining
- Revenue diversification through product IP based acquisitions

Growth through acquisition

JCS continues to seek acquisitions that:

- Add to our product IP (revenue diversity)
- Grow our ERP business, especially in Asia (geographic diversity)

When looking at potential acquisitions we ask ourselves the following questions:

01

Does it align to our purpose?

02

Is it scaleable?

03

Does it solve a significant market need?

04

Can we do it better than the rest?

05

Does it leverage our core capabilities?

06

Does it fit our risk profile?

07

Will it create long term shareholder value?

08

Will it fit our corporate culture?

Our Company Performance

How do we measure our overall success?

Cash Flow

Significant turnaround in company performance since the second half of FY2016

Revenue

Steadily increasing year on year despite reducing TEM Solutions revenue

EBITDA

We have been profitable since 2016

(*) Forecast for FY2019 as at 31 May 2019 – unaudited results.

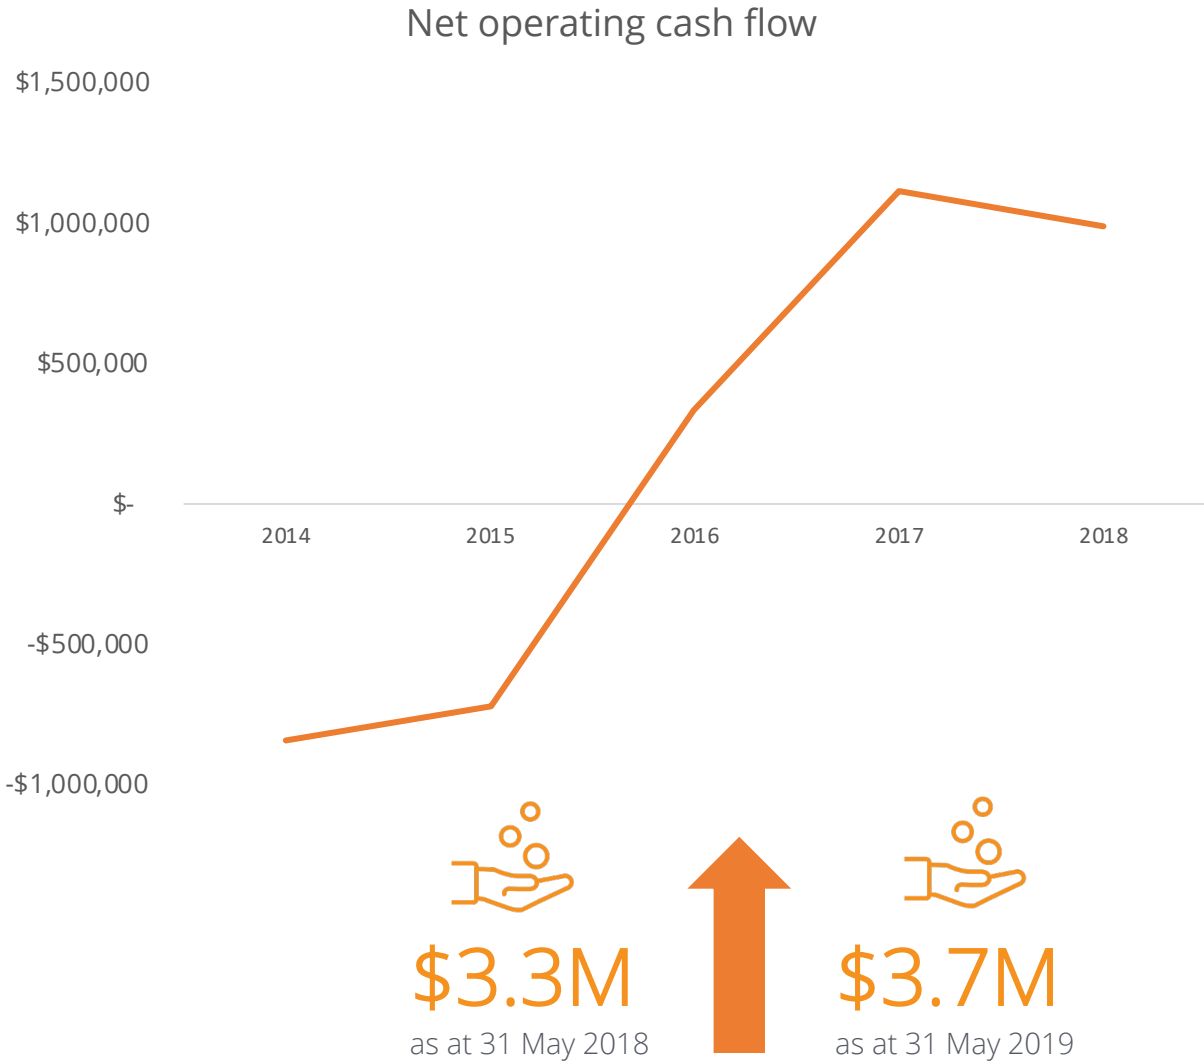

(*) Forecast for FY2019 as at 31 May 2019 – unaudited results.

"Over the past three years we have significantly improved the financial stability of JCurve Solutions which ensures we are well positioned to capitalise on the market opportunities before us. In a time of transformation we now have more customers, have diversified both geographically and from a product perspective, acquisitions paid from existing cash reserves, whilst remaining debt free and growing both our cash and unearned income balances".
